

Pookie & Peach

Pookie and Peach prides itself on being an eclectic mix of cool and quirky, after all who wants to be the same as everyone else?

Launched November 2009, Pookie and Peach has already established itself as a must have favourite with all 'mummy's in the know'. Comments founder, Alexandra Elgood, "I loved finding new and unusual stuff for my own daughters and their friends. So after 15 years in the luxury goods market for grown ups working with brands such as Tiffany and Theo Fennell, I wanted to create something of my own for children, sourcing funky design led pieces that also have an air of functionality."

Pookie and Peach is all about finding the pieces that work and wanting people to want them, every item available has been tried and tested by little ones- so they know that they really do work!

All items are sourced from every corner, with some being UK exclusive, by continually updating the collection in the quest for the perfect selection of things, Pookie and Peach are confident there is something for every possible occasion, from Births to Birthdays, from essentials to treats and most of all... just because.

Pookie and Peach are aware that buying things for babies and children can be a little overwhelming, especially if you don't have them! The 'Oracle Page' will help narrow it down for you, with a compact selection for different events.

Then there is the 'Absolutely Totally Bespoke' service, where they will work with you to create individual, unique pieces such as a favourite book with a funky leather cover embossed with a special message or a one off piece of art. The possibilities are endless, but Pookie and Peach are here to guide and advise and most importantly, to make sure you get what you want.

**Pookie and Peach is all about fun, and being individual,
just like Pookie and Peach themselves.**
